Spa Fusion - Aegean Duo

Product Code: 7E2917

POA

(Ex Tax & Delivery)

ET~LOTUS

A generous shared wellness experience. Aegean Duo is a large two-person wellness bath with a wide rectangular form and sculpted internal contours. Designed for inset installation or integration within a prepared plinth or surround, it creates a calm architectural centrepiece for hotels, spas, wellness suites and premium residences. Each bath is configured around the ET-LOTUS foundations of water, air, light and sound, with the final experience shaped around the users, operating environment and project.

BESPOKE PROJECT CONFIGURATION

Jet quantities, positioning, controls, finishes and supporting options are agreed following consultation. All selections are subject to technical review, bath-shell compatibility and the final project specification.
