Spa Fusion - Caldera

Product Code: EA378A

POA

(Ex Tax & Delivery)

ET~LOTUS

A considered centrepiece for two. Caldera is a generous double-ended wellness bath with sculpted internal contours and a strong architectural presence. Designed for hotels, spas, wellness suites and premium residences, it can be installed within an inset or raised platform. Each bath is configured around the ET-LOTUS foundations of water, air, light and sound, with the final therapeutic experience shaped around the user, the setting and the project.

BESPOKE PROJECT CONFIGURATION

Jet quantities, positioning, controls, finishes and supporting options are agreed following consultation. All selections are subject to technical review, bath-shell compatibility and the final project specification.
