£16920.00

(Ex Tax & Delivery)

METAWELL

Discover a world where deep relaxation transforms into adventure—this is no ordinary lounger, but a vessel of discovery. As immersive haptics flow through your body, the

elements awaken within you—only your imagination sets the boundaries.
Choose your journey. Dive into the depths of water, rise with the freedom of air, ignite the fire of your senses, or reconnect with the grounding energy of earth. Experience the profound resonance of a singing bowls ritual—so moving and authentic, it feels real, surrounding you in waves of pure vibration.
Select from curated wellness and massage journeys, or play your own music and be transported to the energy of a live concert, the intimacy of a jazz club, or the sweeping sound of your favourite movie soundtrack. With every program, the landscapes of your imagination awaken, guiding you deeper into transformation.
At the heart of the RLX Aurasens lies patented technology: 28 tactile sound transducers woven seamlessly into its design, each precisely placed to deliver pure, immersive resonance. Slip on the headphones, sink into the zero-gravity lounger , and surrender to the orchestration of your adventure—all easily controlled with an iPad.
THE TECHNOLOGY The unique patented technology includes powerful transducers that are integrated into the lounger and controlled by the AURASENS module. The position of each transducer in the upholstery is marked with embroidery, to ensure the perfect position for the optimal transmission of sound and vibration.
Wearing headphones, you’re completely immersed in the sensations of the Gharieni AURASENS module while lying on the RLX Experience lounger. All programs are controlled with an iPad.
