LEC
LIVING EARTH CRAFTS

The groundbreaking Nuage line features LEC's proprietary Electra-Glide™ lift actuators, the quietest, smoothest, all-electric lifting actuators in the market today. An amazing Softstart/Softstop™ feature gives a subtle, almost imperceptible, elevator type feel as the table gently whisks clients up and down. This table has been designed from the ground up for ultra-reliability and minimal maintenance requirements in the most intensive spa environments. Shown with optional Dark Mahogany Lacquer finish. Standard finish is Natural Maple.

Now the luxurious Strata Cloudfill™ Mattress is supplied as standard with EarthConnect™, offering a healthier treatment experience with LEC’s patent pending, grounding technology and EMF protection.

EarthConnect – LEC’s EMF protection and grounding feature. A copper infused layer integrated into the mattress, blocks EMF generated by AC motors, while a conductive strip in the table’s mattress connects both client and therapist to the grounded wiring built into the spa’s electrical system. Grounding is believed to neutralize free radicals that accumulate in our bodies by reconnecting us to the Earth’s electric potential, thus stabilizing the electrical environment of our organs, tissues, and cells and reducing acute and chronic inflammation.
