The Largest, Most Comfortable & Hygienic Float Tank on the Market

The ENSO Float Tank System is a commercial flotation and sensory deprivation system engineered to solve many of the operational challenges associated with floatation therapy. It delivers an elevated, low- maintenance wellness service designed to generate recurring revenue.

You are supported well beyond installation. From team training and operational guidance

to launch marketing assets and pricing insight, the team help you position and monetise your float offering with confidence. Because the right system, properly supported, performs better commercially from day one. Includes:

* Pre-installation planning guidance
* Technical setup and commissioning
* Ongoing servicing and aftercare
* Optional marketing and launch support

Features:

- Largest internal float area of any tank on the market accommodating users up to 2.25m tall.
- Full height entry giving improved accessability
- Hoist accessibility for those with limited mobility
- Passive ventilation for a fresh, light, non-humid experience
- Centrally positioned, super-sized automatic door with a low threshold, allowing users to enter comfortably without the need to bend or climb.
- High spec lighting & music
- Non-slip surface on internal floor
- Light & Attendant Call Button
- non-drip design
- Easy to clean internal surfaces
- Reduced evaporation & heat loss
- Fast turnaround - an empty tank when customer is finished means it is quicker to clean
- Reduced heat loss when the ENSO is not in use reduces the heater running time and electricity usage.
- Less water evaporation when the ENSO is empty means lower water bills and less time filling up the levels.
- Automatic dosing allows you to safely dose your ENSO tank with the click of a button at your operating location.
- Adding Epsom salts to your ENSO tank is easier than ever. The large access door makes the addition of salt easy, and a specialised mixing mode ensures the salts are quickly dissolved in the solution.
- Remote diagnostics

Specifications:

Float Tank Internal Dimensions W: 240cm x H: 114cm x D: 166cm

Float Tank External Dimensions W: 265cm x H: 143cm x D: 199cm

Pump System Dimensions W: 87.5cm x H: 80cm x D: 65cm

Reservoir Dimensions W: 102cm H: 191cm x D: 77cm
