Spa & Salon Furniture

The Nada Brahma is Esthetica's mind-body wellness technology — a vibroacoustic experience table that uses sound and vibration to promote deep relaxation, stress relief, better sleep, and mental clarity. Four tactile sound transducers embedded within the table transmit precise frequencies directly through the body, working in harmony with stereo headphones and six pre-loaded wellness programs controlled via a dedicated tablet. As sound becomes sensation and vibration travels through every muscle and nerve, the Nada Brahma offers guests something rare — a moment of complete stillness

in a world that rarely slows down. Designed for luxury spas, holistic therapy centres, and wellness retreats seeking to offer something truly beyond the ordinary.
