METAWELL

The ultimate wellness bed designed for weightless floating. Applications: Soft pack treatments, full body packs for wellness, beauty & cosmetics and physical therapy. Additional options: Multimedia system with built-in sound and sound wave massage, Spa Ambience coloured light module and Jet Massage module. Emergency call device for connection to on-site installation. Plastic panelling and substructure. Panelling: standard black or white, base: black. Foil: grey-white, translucent special foil (with optional Spa Ambience coloured light module). Complete system can be moved. Features an inclined

head section. Silent electric height adjustment. Structure of the bed always remains at the same height, the tub moves upwards and the heated water under the foil envelops the body. The guest's body can be covered with the supplied cover. All functions can be selected via a menu on a touchscreen. The functions are illustrated by pictograms.
