KURLAND
STORY OF MY NATURE

Rasul is an authentic spa experience that allows partners, friends and relatives to enjoy a treatment together in a private setting without the need of a therapist. It's a great stand-alone treatment, and a great addition to packages as well as being a fantastic introduction for new spa goers. In summary guests will apply mineral rich muds and cremes to their body and sit in a private chamber. As the guest sits in their personal heated seat, an automatic programme begins, the lights dim, music starts and steam begins to heat the room up. During this period the guest can re-apply mud and cremes

to the body as it moisturises the skin. To indicate the end of the ceremony, warm tropical rain showers each guest leaving them fully revitalised. An incredible, timeless spa experience. A variety of design finishes are available - see image gallery.
