METAWELL

Waves of Wellness for Mind & Body – Press Pause and Relax your Mind

Welnamis is a binaural vibroacoustic technology that trains the brain to relax and benefit from deep relaxation techniques.

Using haptic vibrations and binaural audio frequencies, Welnamis enables even the busiest minds to achieve a deep level of relaxation in just one session. Similar to meditation, binaural sounds paired with music design slow down mental activity, and the vibrational frequencies act on the body’s energy centers.

Welnamis delivers symptom-reducing and resilience-enhancing, multi-layered programs via stereo
