OAKWORKS

Oakworks' most comfortable table just got better! The Performalift has always offered the ultimate in comfort with the ability to tilt the table up at the head end to relieve sinus pressure or tilt it in the opposite direction with a salon or backrest top to create a zero gravity chair position. Now standard with a removable and replaceable padded top! The Performalift Flat Top is the most comfortable massage table on the market. With the choice of 4" or 6" AeroCel padding and the ability to raise the head end of the table 1-2 inches, you can make a huge difference in comfort for people who experience sinus

pressure when lying flat. It has our largest height range in our premium spa table line, with a full 16 inch height range. The beautiful open wood base is available in a wide range of finishes to match any decor. The powered ABC system (optional) is adjustable to create the perfect level of support for each client, taking pressure off their breasts and tension out of their back.
