Napa Teak La Mer Wet & Dry Treatment Table

Product Code: 41C1FE

£4080.00

(Ex Tax & Delivery)

LEC
LIVING EARTH CRAFTS

The Napa La Mer™ is the perfect solution for wet treatments, massage, Vichy showers, body wraps, mud masques, scrub treatments, and more. This beautiful shelf table is crafted with treated water resistant Teak wood and marine grade foam and Aqua™ vinyl. Add stainless steel hardware and a vented HDPE top and you have a table ready to endure the constant rigors of a wet room environment. Non-electric height adjustments are easy and can be done while the client is on the table. Just a few revolutions of the handle and the Napa La Mer positions itself perfectly for a number of wet room

treatments as well as massage. Unlike other wet room tables, the comfortable upholstered top is designed to drain and can be removed for periodic disinfecting. At the end of their useful life, the foam and upholstery can easily be replaced.
