Taiji Hot Cabi HC-11 UV Pro Series

Product Code: 71112F

£510.00

(Ex Tax & Delivery)

Keep your treatment towels at the perfect temperature - This hot cabi heats towels with ease and is suitable for use in both salons and spas, warming up to 48 wash cloths at once. Taiji allows you to heat your treatment towels throughout the day; temperatures range between 70-80 degrees Celsius when using the heat function. This efficient piece of equipment will speed up your treatment times and ensure you will always be prepped with enough towels as required.

This UV hot cabi is 220-240V and includes a UV lamp for ultraviolet light and you can be sure to guarantee you'll be providing your clients with deeply cleansed towels for a high-quality treatment. Available in single and double door options, it is sure to suit your therapist's needs and maximise storage space. It's modern and neutral white design will fit seamlessly into your salon or spa décor for a professional aesthetic. Each compartment has a single wire rack and the top compartment has a UV light to help sanitise surfaces. The door opens horizontally and features magnetic latches. Its smooth touch control panel is located suitably to reduce contamination.

This cabi from Taiji is specifically manufactured out of chemical resistance plastic. This enhances the cabi's durability and ensures it is incredibly robust – this unique feature is only available with this Taiji hot cabi and makes it a remarkable piece of equipment. Designed especially to meet the needs of busy salons and spas.
