Clinician Manual-Hydraulic with Lift Assist Salon Top

Product Code: 7F082B

£3080.00

(Ex Tax & Delivery)

OAKWORKS

The Clinician™ Series just got better, and now comes standard with a removable and replaceable padded top. The Manual/Hydraulic Lift system is an easy and affordable way to make quick height adjustments without disturbing your client in the process. This hybrid system replaces the electric/hydraulic motor with a fold away crank handle that easily lifts or lowers your client to the desired height. This is a great choice where electricity is problematic. A convenient storage shelf comes standard and provides the

perfect place for accessories, lotions, oils or anything you need close at hand. Upgrade to the optional cabinet allowing you to choose door designs to create exactly the look you want. Gas cylinders and easy to reach finger controls; make configuring your table in any position almost effortless. Optional armrests are a smart choice for this top; giving the table the feel of a comfortable recliner and making your clients feel as relaxed in your office as they would in their own living room.
