KURLAND
STORY OF MY NATURE

The snowfall shower with snowstorm effect! The Snowbliss brings elemental forces to your spa, using cutting edge technology. Cooling with water and ice has been around for thousands of years, and in Scandinavia it is traditional to warm up in the sauna and then enjoy the snow for cooling. Now we conjure up a heavenly snowstorm in your spa that is available all year round, independent of the climate and location. At the press of a button select either a snowfall with gentle snow sprinkling on you, or a snowstorm with the flakes swirling on all sides, with wind, thunder and lightening! A unique experience

for your guests all year round! Fast & easy installation.
