G-Vac

Product Code: 89D649

POA

(Ex Tax & Delivery)

METAWELL

The Gharieni G-Vac combines clinically proven negative pressure wave therapy (Intermittent Vacuum Therapy) with the benefits of compression treatment (mechanical lymphatic drainage, sliding wave massage). Clients find the patented alternation of negative and positive pressure extremely pleasant, beneficial and relaxing.
For use in the Body & Shape area, the G-Vac is also equipped with a Beautylight module (red light in the near-infrared range, photo-biostimulation) for additional strengthening of the connective tissue and for a taut, smooth skin.

and for firm, smooth and beautiful skin.

Three in one

Vacuum waves, compression and photo-biostimulation (Beautylight) at the same time!

This is the new top standard in modern full-body cosmetics, figure and health care.

The technology is safe and durable, made in Germany and TÜV-tested. The vacuum therapy is approved and certified as a medical product. Safe, simple and comfortable

The Gharieni G-Vac requires less space than a treatment table. The device has eight automatic treatment programmes that can be started at the touch of a button. (touch screen). Treatments take only 25 minutes, which is sufficient for optimal treatment results.
