Scaneca 3D Body Analysis

Product Code: 8EF99E

POA

(Ex Tax & Delivery)

SCANECA

SCANECA provides comprehensive body analysis in no time and presents the results in an easily understandable way. Its completely harmless contactless technology reveals even minor changes to the body.

In one measurement process, SCANECA creates a detailed virtual copy of your body, performs a posture analysis, determines the most important health-related parameters and measures body circumferences.

With a fascinating 3D-Avatar, you can see your body from all sides Every person is unique. SCANECA provides an objective view of the entire body and helps define individual training and therapy goals.
