Maletti GROUP

The Heaven Backwash with adjustable headrest has been developed with specialists to promote total muscle relaxation for the client with perfect alignment of the vertebrae. The complete lying surface also has the option of air massage in the seat and back.

11 years after the first project, Maletti Group presents the new Shirodara treatment device, born from an in-depth analysis of the techniques of this treatment, combined with the most modern medical-anatomical studies.

The Maletti Group has designed a waterfall device, i.e. an arched-shaped nozzle which

releases a constant flow of lukewarm water onto the forehead, stimulating the Third Eye, one of the Chakras according to the principles of Shirodara. The arc is adjustable to ensure precise positioning and complete comfort for the client.
