£950.00

(Ex Tax & Delivery)

Align-Pilates

Align-Pilates' Combo Chair III is a new version of the Pilates chair, also known as the popular Pilates Wunda Chair that was created by Joseph Pilates. Our Pilates chair is a

piece of high quality equipment used in Pilates training that consists of a padded seat, a set of springs, and a pedal. The pedals can be used in different ways to target different muscles and used for a range of exercises from core, lower body, and upper body strength. The Pilates chair is great for balance, flexibility, and building strength. Springs provide varying levels of resistance.

Even though the Combo Chair III looks similar to its predecessor, it features a number of improvements that improve smoothness and quietness, taking this chair to new heights. Among the new features are a new pedal locking mechanism, a revised pedal axle with roller bearings, new rubber-coated silent spring hooks, and a chromed spring tree for greater durability. Use at home or studio. Available Flat Packed or Built.

Features:

- Maple veneered marine ply on steel frame for excellent structural strength
- Tried & tested 4 spring system with 4 positions for each spring and 2 spring strengths to provide a wide range of resistance
- Modern looking cut out sides for easy spring change access when the chair is against a wall
- Eyelets to attach Resistance Bands (Light, Medium & Strong) to add arm repertoire
- Insert the A-Series Jump Board to provide an optional chair back for scapular support work and help develop perfect posture
- Rattle free handles are removable and easily adjustable via a single ‘twist and pull' knob that offers a height range from 115cm to 145cm
- Handles can also be used on the reformer for added exercise options
- Split pedals which are easily joined or separated using a redesigned locking slider underneath the pedals
- Single or split pedal functionality
- Easy rolling wheels allow for easy movement of the apparatus
- Includes 4 finest Korean Music Wire and are nickel coated; 2x Strong Springs and 2x Extra Strong Springs
- Large rubber feet prevent trapping fingers under the pedals
- Seat height matches that of the Cadillac & A8-Pro Rehab Reformer
