Ladder Barrell RC

Product Code: 95D462

£950.00

(Ex Tax & Delivery)

Align-Pilates

The Ladder Barrel has been designed to offer quick barrel adjustment to accommodate different user sizes or workouts. Simply open the two quick release cam levers, slide the

barrel in or out, and close them to adjust the barrel. With 31cm of adjustability, the Ladder Barrel RC offers industry-leading levels of adjustment. It also comes with two padded standing boards (usually sold separately for around £100), which makes it easy to set up for people of all sizes. Revisions have been made to the arc and dimensions of the Ladder Barrel RC, which now closely resemble classical proportions. As compared to its predecessor, the RC barrel has a smaller diameter and is now of classical proportion. Additionally, there is an extra 5mm of EVA padding to make the barrel more comfortable. To provide more comfort, there is also now a padded rung wrap, which can be zipped on to any bar. This version of the Ladder Barrel RC is Pre-Built.
