RE-CHARGE YOUR COOLNESS

With modern technology and noble design start your journey into the future with high performance cryotherapy chambers by Art of Cryo. With a guarantee REAL sub-zero temperatures, over 25 years of experience make Art of Cryo world leaders in the area of high performance cryo chamber technology.

Art of Cryo high performance cryotherapy chambers can be found in luxury hotels, cryo chamber centers, in beauty and cosmetic institutes, in clinics, doctor’s offices and many more. The powerful refrigeration units guarantee stable sub-zero temperatures for use in the application areas health, sport, wellness and beauty, and lifestyle.

The benefits of real cryotherapy range from pain reduction to brightening the skin, improving mood, concentration and even performance. With our electrical cryo chamber you can offer the best to your customers and patients.

With Art of Cryo's unique application software and app, every customer and patient receive their individual perfect application time and repetition.

Meaningful sub-zero temperatures always refer to the temperature in the application room.
