Wellness & Aesthetics Technology

A Commercial Solution for Modern Wellness and Recovery

ENSO Red is a professional full-body Red and Near-Infrared (NIR) light therapy system designed for spas, wellness centres, gyms and recovery studios looking to introduce a premium wellness and recovery treatment.

Designed as a walk-in booth, ENSO Red delivers efficient whole-body light therapy in a

single session using clinically researched red and near-infrared wavelengths. With simple operation, broad treatment appeal and a scalable workflow, it provides an ideal solution for businesses looking to expand their service offering while delivering a premium client experience.
