ISO BENESSERE®

PROFESSIONAL FULL-BODY RED AND NEAR-INFRARED LIGHT PANEL FOR WELLNESS AND RECOVERY TITAN RED is a professional full-body red and near-infrared light panel designed for spas, wellness centres, medical spas, longevity clinics, physiotherapy and recovery studios. Its 1,200 high-performance LEDs provide wide, uniform body coverage

using 660 nm red light and 850nm near-infrared light, which can be activated together or independently.

Adjustable brightness, timer and pulse frequency allow personalized photobiomodulation sessions, while the OLED touch control panel, remote control, low EMF missions, flicker-free operation and efficient cooling support intensive daily professional use.

Features:

- 1,200 high-performance 5 W LEDs
- 660 nm red light and 850 nm near-infrared light
- Combined or independent RED and NIR operation
- Touch control panel with OLED display
- Three customizable operating modes
- Four preset operating modes
- Adjustable brightness from 10% to 100%
- Adjustable timer from 1 to 60 minutes
- Adjustable pulse frequency from 1 to 1,000 Hz
- Remote control with display
- 60° optical lenses
- Low EMF emissions
- Flicker-free operation
- Five-fan cooling system
- Tempered glass front with aluminium frame

Specifications:

- Dimensions: 1790×490×60 mm (70.5 × 19.3 × 2.4 in)
- Net Weight: 40kg/88.2lbs
- LED Source: 5kw
- LED Power class: 6000W
- Power consumption: 2000W
- Wave length ratio: 660 nm : 850 nm = 1:1 (customizable)
- Number of LEDs: 1200
- Lifespan: 50,000 hrs
- Recommended minimum treatment area: 600×2000mm (23.62 × 78.74 in)

Optional Extras:

- Motorized adjustable mobile floor stand with remote control + £835.00
- Electric ceiling-mounted height-adjustment system for TITAN RED + £1020.00
