Mercura

Product Code: BA8150

$85.00

(Ex Tax & Delivery)

madebyzen

Expertly designed as a stunning piece of home décor, the Mercura gives a cool scented aromatherapy mist whilst bathing your room in ambient light. Luxuriously fill your home with scent, light and style.

Simply fill with water, add a few drops of oil and elevate daily activities into therapeutic self-care rituals. At the touch of a button, any room can be effortlessly filled with the fragrance or essential oils of your choice via a fine mist of heatless, scented vapour.

This diffuser also features an intermittent mist control to consistently fragrance your room without overpowering your senses and there's a convenient night mode for quiet meditation or relaxed sleepy nights. The diffuser shuts off automatically when the water falls below a certain level for your safety and peace of mind.

Available in grey and white
