Hydrowet 7

Product Code: BACF70

POA

(Ex Tax & Delivery)

HYDROco
KNOW THE DIFFERENCE™

Embrace the total flexibility and creativity offered by this innovative showering system. Seven individually controlled showerheads are tuned by a twist of the therapist's wrist from 'rain' to 'needle pattern'. By turning off individual showerheads, concentrated pressure flow can easily be focused to areas of the body - which is of benefit whilst performing hydrotherapy massage. Features include a 'swing away' rainbar and a thermostatic mixing valve. These features not only ensure the bather's comfort but, more importantly, their safety. The super-soft mattress with the moulded face cradle

provides ease of access for the therapist- enhancing the massage whether the bather is face down or face up. A hand-held shower is also provided, in order to simplify washing down the bather and table.
