LEC
LIVING EARTH CRAFTS

LEC's new Insignia 2.0 Ellipse™ Multi-purpose Treatment Table combines award-winning comfort and striking design aesthetics with operational excellence. The Insignia Ellipse

2.0 features a stunning dual-column pedestal design with programmable LED accent lighting.

From Botox to body treatments, the versatile Ellipse enables a broad range of spa and medi-spa treatments in a single room. The replaceable, ultra-luxurious Strata Cloudfill™ Mattress with EarthConnect™ grounding and EMF protection will impress the most discerning spa clients with its lavish comfort. LEC's proprietary Flo-Tech II™ whisper-quiet all-electric lift system swiftly whisks clients into perfect positioning with nearly imperceptible height and top adjustments.

The highly ergonomic Insignia Ellipse features the industry's largest height range (from 22"-39") as well as a therapist protecting anti-entrapment sensors. Built-to-order and fully customizable, the Insignia Ellipse options include the Comforma Lux™ Adaptive Chest Comfort System, Thermasoft™ Dual-Zone embedded table warmer, PivotPerfect™ armrests, Digital warming drawer, ReZen™ Vibro-Acoustic Resonance Therapy, and multiple finish and fabric options.

EarthConnect – LEC's EMF protection and grounding feature. A copper infused layer integrated into the mattress, blocks EMF generated by AC motors, while a conductive strip in the table's mattress connects both client and therapist to the grounded wiring built into the spa's electrical system. Grounding is believed to neutralize free radicals that accumulate in our bodies by reconnecting us to the Earth's electric potential, thus stabilizing the electrical environment of our organs, tissues, and cells and reducing acute and chronic inflammation.
