OAKWORKS

No other system on the market is designed specifically to create ergonomically correct support for side lying positions. In development for almost a year with the help of top pregnancy instructors who are very focused on correctly positioning people in the most comfortable way, every detail was considered. Each pad has unique features that insure that the client is properly supported and fits a wide range of body types and sizes. The system also offers the flexibility to be used as a backrest and a seated support.
