Quartz Poultice Warmer

Product Code: E56EBC

POA

(Ex Tax & Delivery)

GHARIENI

This Quartz Poultice Warmer ensures a constant for the quartz poultices. The heating

system can be easily controlled from the front panel and an LED indicator provides information on the temperature status. The design of the real wood frame is adapted to the Gharieni MLX series. The cover ensures efficient heat storage and can also be used as a tray for the poultices.
