Sinus pressure is reduced and pressure points eliminated. The Flex-Rest's base has patent pending elastomeric connective tissue, which flexes under pressure to create the optimal pivot point to suspend your client's face in a cradle of comfort. When combined with our Form-fit™ memory cushion, the Flex-Rest molds itself perfectly to each and every face shape and size. Package: Form-fit™ memory cushion, Flex-Rest™ platform

The revolutionary Flex-Rest™ self-adjusting face cradle flexes and pivots to adapt to the unique shape of your client's face
