akt GROUP
AKTME · CODE · SKYY · LIFE WELLTECH

SKYY was born from a vision: to create massage beds that evolve with the needs of spas today and tomorrow. Part of AKT Group, our French-Italian group with over 20 years of expertise in spa innovation, SKYY represents the game changer - redefining the role of massage beds and setting a new standard for the future of wellness experiences.

As standard the beds are equipped with 4 motors with telescopic column mechanism / 17 cm progressive mattress with Memory Foam / Biocompatible finishes / Closed and

refined plateau / Modular and scalable design over time / Zero visible structural elements / Far Infrared Heating System

A collection designed to evolve. The SKYY Collection combines design and smart engineering in a scalable system, built to adapt over time. A modular structure and biotechnological integration come together to create a wellness experience in constant evolution.

The SO_2 is a fully electric, multifunctional spa bed with two columns on a metal base.
