

MLW Transform

Product Code: 819F54

\$11075.00

(Ex Tax & Delivery)

With the MLW Transform it is now possible to combine incorporate a treatment table into your Spa Suite, Living Room or Lounge! In a few simple steps you can turn this stunning couch into a massage lounger. How does it work? Very easy:

Use the integrated touchpad to activate the electrically extendable lightweight wheels. Remove the seat of the couch. Insert the face rest. Finished!

The massage lounger with its current-independent battery and pull-out cable is, of course, height-adjustable and heatable for a cozy feel-good experience. The headboard can also be adjusted in height and inclination for optimum reclining comfort.

"Rolled in one", the three pillows can be easily removed on the back of the couch. The high-quality, elegant faux leather upholstery is available in different designs and colors. And for a completely individual look, the sofa can also be equipped with a leather cover or a (customer-specific) cover.
