WOODWAY

The Curve's curved design allows any user, regardless of size or weight, to instantly achieve the speed they desire without the use of elevation or a motor! The Curve's sophisticated curved design is the culmination of years of non-motorized design and development by WOODWAY and Alex Astilean. The key ingredient is WOODWAY's patented running surface and near-frictionless drive system, which allows the running belt to move freely. Totally Green Treadmill - HUMAN POWER! The user controls their speed by positioning their body along the curved running surface. Stepping forward initiates movement, as the user propels themselves up the curve the speed increases. To slow, simply drift back towards the rear curve.

Features:

- ✔ Coded/Non-Coded Polar Heart Rate Pick-up
- ✔ Slate Grey Handrails
- ✔ LED Display Board

Specifications:

- ⚙ Length: 1730mm
- ⚙ Width: 790mm
- ⚙ Drive System: 112 Precision Ball Bearings with 12 Roller Guides (4mm lateral tolerance)
- ⚙ Running Surface Dimensions: 430mm x 1700mm
- ⚙ Drive Motor: Human Power
- ⚙ Running Surface: Vulcanized Rubber (38-43 shore hardness)
- ⚙ Height: 1730mm
- ⚙ Weight: 245 lb (330 lb shipping)
- ⚙ Belt Type: 60 Individual Slats
- ⚙ User Weight Capacity: Run: 500 lb/Walk 800 lb (4 mph max)
- ⚙ Power supply: Does Not Require Power Source
- ⚙ Warranty: 5 years all components & belt, 2 years battery operated display, 1 year labour
