

Hydrorain 7

Product Code: A09FB6

POA

(Ex Tax & Delivery)

This innovative vichy shower design allows for the 'shut-off' of individual shower heads. This increases the flow of pressure from the open flowing heads and conserves water. The increased pressure enhances thermal massage techniques. A plexiglass face shield is attached to the end of the rainbar and, when in position, assists in preventing water splashback in the bather's face. The Hydrorain 7 can be positioned over our unique Hydrowet treatment table which is supplied with mattress and hydraulic lift for table height adjustment.
