OAKWORKS Spa

The Oakworks 100 Series Procedure Chair is the perfect combination of comfort, power and elegance, in a package compact enough for the closest working conditions. Perfect for medispas, the 100 Series is versatile enough to transition between most popular medispa treatments, while the strong lifting columns make it durable enough to safely and securely support patients up to 600 lbs. The 20 degree reverse Trendelenberg tilt ensures that you will be able to achieve the perfect position to facilitate treatment and relax the client. The 100 Series Procedure Chair gives you the precision and stability that delicate procedures demand, with the style and comfort that is a benchmark of all of Oakworks products.
