

DEA

Product Code: B785E3

\$7650.00

(Ex Tax & Delivery)

DEA is a vibro-acoustic Chaise Longue and is able to create a sound wave all over the user's body dividing and alternating tones and frequencies on specific body areas for emotional experiences like no other. The body vibration created by the music, boosts relaxation and combines it with the benefits of music therapy. The sinuous lines of DEA have been designed especially for relaxation and to follow up the body in its relaxed mood, soaking it in music and colors.

DEA has a treated steel structure, powder coated rust-proof, water and humidity resistant, with Plexiglass parts that transmit colors into the environment. The anatomical mattress is covered in marine eco-allergenic leather, stain resistant and with a heating system that makes DEA always warm and cozy. DEA draws a perfect curve, comfortable and relaxing, designed for wellness areas, beauty centers, wet SPA areas and swimming pools. Its small size makes it easily adaptable to any environment. DEA has inside an innovative RGB lighting system that is able to create a customizable colorful atmosphere with different range of intensity and different cycling that allow to create an advanced chromotherapy tool, easy to connect and coordinate to other chromotherapy system already installed. All of these features makes DEA unique and perfect in any environment creating incomparable sensations.
