OAKWORKS Spa

The Clinician™ Series just got better, and now comes standard with a removable and replaceable padded top. The Clinician™ Series was designed to meet just about everyone's needs, especially when budget is a priority. The Clinician™ Series comes standard with a storage shelf and the optional cabinet upgrade allows you to store all of your spa table accessories safely and conveniently beneath the clinician, freeing up valuable room space. With the optional cabinet door designs, you can create exactly the look you want while staying in budget. The combination of affordable quality and electric lift functionality make the Clinician an investment in your practice that won't break the bank. The Electric/Hydraulic Lift system is the most convenient way to adjust your table, allowing you to raise and lower the height with the included foot control. Your clients will appreciate the quiet motor that gently lifts them to your desired height while they continue to relax on the table. The Lift Assist Salon Top uses four separate padded sections to create a variety of positioning options that assure that your clients are completely at ease, no matter the procedure. Gas cylinders and easy to reach finger controls; make configuring your table in any position almost effortless. The Lift Assist Salon Top features our patented access design, created to improve the ergonomics of the therapists while working in a seated position. which are smart choices for this top; giving the table the feel of a comfortable recliner

and making your clients feel as relaxed in your office as they would in their own living room.
