Quartz Poultice Warmer

Product Code: E56EBC

$1640.00

(Ex Tax & Delivery)

GHARLENI

The Quartz Poultice Warmer maintains a consistent temperature for the quartz sand

poultices. The heating system can be effortlessly managed from the front panel and an LED indicator displays the temperature status. The real wood frames are designed to match the MLX series, adding to the ambiance of your space. The cover aids in efficient heat storage and the larger model can even serve as a tray for the poultices.
