

## CryoDuo

Product Code: F88150

**POA**

*(Ex Tax & Delivery)*

The CryoDuo™ has been designed to offer users the simplest, safest, and most effective whole body cryotherapy session available of any system across the industry. Leveraging our experience and expertise, the CryoDuo deploys the latest technology to offer unrivaled features and is designed to ensure the user is never in direct contact with nitrogen gas. Built within an exquisitely designed enclosure, CryoDuo is simply the coolest whole body cryotherapy system on the market.

CryoDuo uses an indirect cooling system,, meaning the users never come into contact with the nitrogen gas. The niitrogen is only used as a cooling agent inside the heat exchanger technology.

The CryoDuo is a vailable in 3 sizes for 2, 4 or 6 people.
