

## THE MOST SOOTHING & HYDRATING EXPERIENCE AVAILABLE

PerfectSense Paraffin combines powerful Swiss apple stem cells, medical-grade paraffin, soothing heat and aromatherapy into one unique treatment. The PerfectSense Paraffin System heats each individual pair of mitts or booties using natural mineral technology- no electricity needed!

### HOW IT WORKS:

The perfectsense chamber holds one pair of mitts or booties and a heater pouch. The chamber is made from durable and light weight aluminium making it perfect for mobile treatments or for moving around the salon or spa. This unique design lets the paraffin drip away from the heat, so the paraffin's always at the optimal temperature.

### HEATER POUCH AND AROMAVAPORS:

Choose from Lavender, Invigorate (a blend of eucalyptus, spearmint, peppermint and mandarin orange), Neutral (to add your own essential oils) or the NEW Natural Collection. The Natural Collection of AromaVapors contains blends of pure and natural essential oils extracted from plants, including flowers, bark, stems, leaves, and roots. They are also paraben and phthalate free - 12 each of Ruby Guava, Hibiscus Peach and Spiced Amber.

### TREATMENTS:

Each treatment contains one pair mitts or booties. Each glove or slipper contains medical grade paraffin – over three times the average amount received from a standard dip service. The single-use treatments are sealed at the factory for total sanitation - no one ever touches the paraffin except the client.

### BENEFITS:

#### Safe and Sanitary

Chamber design keeps the paraffin at perfect temperature, individually sealed treatments means no cross contamination and is easy to clean and store.

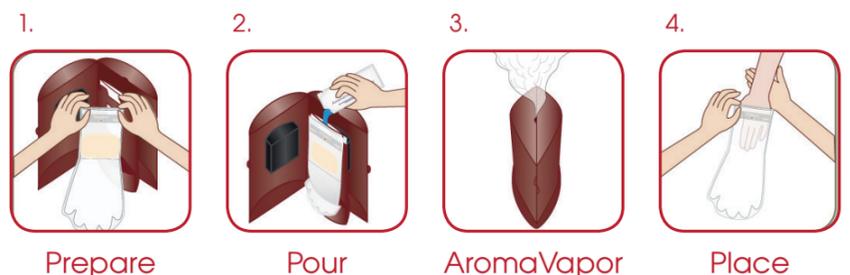

#### No electricity needed

Mineral heating technology means you can do treatments anywhere, anytime; no need for a power source or long waits for the paraffin to melt.

#### Powerful Results, Powerful profits

Create the perfect manicure or pedicure or why not upgrade your facial or body treatments to add new revenue with every treatment.

#### As easy as...

### BLEND:

#### Nourishment+

Protects the skin against free radicals while promoting cellular renewal, helping to reduce the signs of natural ageing. This unique formula combines Swiss Apple Stem Cell, Grape Seed Oil, White and Green Tea, Vitamins A,C and E Panthenol, B12, Soy Lethicin and Sorbitan Stearate to provide antioxidant and nourishment support.
