

CLINICIAN MANUAL-HYDRAULIC SERIES

Our most popular model just got better! The Clinician's fine handmade furniture construction sets Oakworks® Spa Tables apart from the rest. It offers the perfect blend of beauty, function and value with options to have it reflect your spa's aesthetic. Now it comes standard with a removable and replaceable top!

New!
One Piece Removable Pad

Padding and fabric on tables never last as long as the bases, and occasionally they get damaged; in the past you had to replace the whole table. Our new design features finger knobs that can be removed in minutes, allowing you to remove the foam and fabric and install a new one without any special tools so your table will be serviceable for much longer.
